Substitutes

Could replace kale with chopped chard or spinach.

Could eliminate cilantro and double parsley instead.

Could replace sunflower seeds with pumpkin seeds or walnuts, pecans, or pistachios.

Could use lemon in place of lime.

Could use brown rice, barley or pasta in place of quinoa.

Pairs with

This fresh salad pairs well with other traditional summer-time dishes, such as sautéed zucchini, watermelon, mixed berries or corn on the cob.

While this dish can be a stand-alone and well-balanced entrée, it would also pair well with cod seasoned with lemon pepper or black beans for some extra protein.
