Redesign Recap

Phase 1 of our redesign is (mostly) complete! We are so excited to be back in the building with new carpet, new teen area, and new meeting rooms coming soon.

Along with the physical redesign, we also have been working on a secret project: a New Website! Our new website was designed with our users in mind to help you connect with our catalog and online resources. We are continuing to make improvements in it’s design working page by page so keep an eye out for new features.

Lastly, we want to share a huge thank you to all of you for your patience during the redesign with our closure and returns. Our library staff, board, and Friends group have all worked diligently preparing for this project. We hope you all find time to stop by for a look.
